This paper reviews economic developments in Suriname during 1994 – 96. In 1995, there was a major turnaround in Suriname ' s economic and financial situation following the expansionary fiscal and monetary policies pursued in the first half of the 1990s and the political and economic disruptions of the 1980s. The marked improvement was owing to the restoration of financial discipline, a strengthening of international bauxite prices, and the unification and subsequent stabilization of the exchange rate. The inflation fell further to less than 1 percent in 1996.

Obstetrics can be a particularly daunting prospect for those starting out. This book is designed for those SHO's, trainee obstetricians, trainee GPs, and medical students doing their obstetrics rotations, who find that they need a small, practical guide to dealing with the many and varied problems they will face.The chapters are arranged chronologically, starting with early pregnancy. Following chapters chart the course of the pregnancy and labour right the way through to the post-natal visit. Throughout the book, Dr Neuberger stresses the importance of the Confidential Enquiries into Maternal Deaths and emphasizes the intensive nature of much of the specialty, the potential for sudden problems, and the constant need for vigilance. The text is supplemented by many simple line drawings to aidclarification and numerous check lists to reinforce important points. A final section has been written specifically to help candidates for the DRCOG.Obstetrics is the ideal book for everybody coming to the field. Its chronological structure means that finding information is quick and easy, the check-lists aid recall, and the text focuses on those aspects of the specialty that the physician on the ward needs in everyday practice. It is not an `exam-crammer' but a well-written and concise guidebook to obstetrics and as such it will find a place in the library of every health worker who works with pregnant women.

This beautifully illustrated mini field guide is packed with information on 200 species of fungi found in Britain and the near Continent. The range covered demonstrates the incredible variety that exists within the world of fungi, from the better-known groups such as the boletes and russulas, to more esoteric and often strangely shaped types like bracket fungi, clubs, corals, puffballs, stinkhorns and elfcups. All the species are illustrated with superb full-colour artworks that show - where relevant - characteristics of shape and other aspects of appearance that change during their lives. A concise written account covers size, description, habitat and the season in which each fungus may be found. The easy-to-follow layouts and superb artworks aid quick and accurate identification, making this book an indispensable reference in the field as well as at home. It is compact enough to fit in the pocket, yet packed with essential information for the nature enthusiast. Renowned natural history artists including Cy Baker, David Daly, Colin Emberson and Lyn Wells painted the illustrations.

The nature of ethics has been the subject of much controversy and argument in recent decades. Theological Ethics and Global Dynamics tackles these various debates, offering a wide-ranging, comprehensive, and provocative statement of the nature of theological ethics in global times. Offers an accessible, lively, and provocative statement of the nature of moral philosophy and theological ethics in contemporary times. Tackles various perspectives on debates about distinctly Christian ethics. Argues that we need to reframe the arena in which moral questions are asked. Engages a range of positions, exploring distinctively modern issues such as moral and cultural relativism, globalization, problems of consumption and violence, and religious pluralism. Addresses the complexity of certain ethical decisions, which are difficult and far from clear-cut, and yet presents an ethical understanding which is both humane and deeply religious.

Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-twisting and, of course, outright lies.
