System Analysis & Design Notes in Hindi | Computer Hindi Notes

Structured Analysis is a development method that allows the analyst to understand the system and its activities in a logical way. It is a systematic approach, which uses graphical tools that analyze and refine the objectives of an existing system and develop a new system specification which can be easily understandable by user.

Structured Analysis - Tutorialspoint

The goal of the analysis phase is to truly understand the requirements of the new system and develop a system that addresses them -- or decide a new system isn't needed. The System Proposal is presented to the approval committee via a system walk-through. Systems analysis incorporates initial systems design. Requirements determination is the ...
