This issue of AD looks at the work of STUFISH Entertainment Architects. Founded by the late Mark Fisher, the legendary British architect known for his rock music stage sets for bands including the Rolling Stones, U2 and Pink Floyd, the studio is a recognised leader in entertainment architecture. The STUFISH team of architects, designers, visualisers, production managers, technical specialists and producers creates ambitious and pioneering work, exploring new ways to inspire audiences and visitors, from musical experiences to theatrical shows, exhibitions and buildings. Its work has been synonymous with the key theatrical, musical and monumental events embodied in the collective memory of generations across the globe since the mid-1990s. Entertainment architecture is a highly innovative, creative endeavour, producing ever-more elaborate, architectural spectacles. This issue visits the many facets of STUFISH — its history and design process, audience memory and experience — exploring the story behind and evolution of this particular brand of popular culture and its spatial manifestations, and touching on what the future may hold for it. Contributors include: Leonard Auerbach, Victoria Broackes, Peter Cook, Adam Davis, Haidy Geismar, Robert Kronenburg, Theo Lorenz, Ash Nehru, Aubrey Powell, Neil Thomas, Willie Williams, Patrick Woodroffe and Maciej Woroniecki.

Catch a rare inside glimpse of one of the world's most revered guitarists, David Gilmour, and his iconic Black Stratocaster. Written by David's personal guitar technician and the band's chief backline tech since 1974 — the only man to know Pink Floyd's equipment better than the band — this expanded edition contains new information as well as many unpublished photographs, recently come to light, that further chart the Black Strat's illustrious history. Amending and elaborating on the previous edition, it also continues the story where the last one left off with all the latest live appearances, information, and photographs — including David testing the Fender Black Strat replica models; performances with David Bowie, Jeff Beck, and others; and much more.

The newest addition to the best-selling All the Songs series details the unique recording history of Pink Floyd, one of the world's most commercially successful and influential rock bands. Since 1965, Pink Floyd been recording sonically experimental and philosophical music, selling more than 250 million records worldwide, including two of the best-selling albums of all time Dark Side of the Moon and The Wall. While much is known about this iconic group, few books provide a comprehensive history of their time in the studio. In Pink Floyd All the Songs, authors Margotin and Guesdon describe the origin of their nearly 200 released songs, details from the recording studio, what instruments were used, and behind-the-scenes stories of the tensions that helped drive the band. Organized chronologically by album, this massive, 544-page hardcover begins with their 1967 debut album The Piper at the Gates of Dawn, the only one recorded under founding member Syd Barrett's leadership; through the loss of Barrett and the addition of David Gilmour; to Richard Wright leaving the band in 1979 but returning; to Roger Waters leaving in 1985 and the albums recorded since his departure, including their 2014 farewell album, The Endless River, which was downloaded 12 million times on Spotify the week it was released. Packed with more than 500 photos, All the Songs is also filled with stories fans treasure, such as Waters working with engineer Alan Parsons to employ revolutionary recording techniques for The Dark Side of the Moon at Abbey Road Studios in 1972 or producer Bob's Ezrin's contribution in refining Water's original sprawling vision for The Wall.

The definitive history of Pink Floyd by founding member Nick Mason, this reading edition brings up-to-date the band's incredible story as told uniquely from the inside out. Including the complete text of the original in an easy-toread format, a new chapter covering the passing of Rick Wright and the release of the group's final album, and 80 pages of images from Mason's archives plus new photos, Inside Out is a masterly rock memoir and an eye opener for both veteran fans and those just discovering the group.

Interest in Pink Floyd remains as intense as ever even 40 years after the release of Dark Side of the Moon, with lavish box-sets collecting demos and out-takes, and Roger Waters ' world tours of The Wall playing to packed stadiums. Now, Mark Blake ' s superbly comprehensive and engrossing history of the group, rightly acclaimed as the definitive book on the band, has been fully revised and extended with new interviews to bring the story up to date with the recent appearances of David Gilmour and Nick Mason with Roger Waters at a London date on his The Wall tour.
