"Famed educator John Dewey advocated the "learning by doing" approach to education or problem-based learning. The tenth edition is written, from start to finish, with that philosophy in mind and is reflected in the book's subtitle, *Challenges and Best Practices*. And, as with its eight predecessors, this book benefits from the authors' many years of combined practical and academic experience. Its chapters contain a real-world, applied flavor not found in most policing textbooks and reflect the changing times in which we live and the tremendous challenges facing federal, state, and local agents and officers every day. And like its eight preceding editions, this edition continues to represent our best attempts to allow the reader, to the fullest extent possible, to vicariously experience carrying a law enforcement badge or wearing a police uniform by providing a highly practical, comprehensive world view of the challenging occupation. As shown above in the below "New Topics" section, included are several beneficial additions in topics as well as changes in its organization and content"--

This book provides readers with a comprehensive view of the often obscure world of policing, with in-depth coverage of today's major topics. It explores the methods and issues, personality and problems, and attitudes and beliefs of those persons who enforce federal, state, and local laws. Chapter topics include the rights of police officers, women and minorities in policing, private policing, unionization, contract and consolidated policing, civilianization, accreditation, higher education, and stress. A "real-world" focus gives insight to one of the most difficult and challenging occupations in America. Career overviews highlight information on the various fields of police work for those considering making it their future. Given their prominence and authority in our society, "consumers" of police services will also find this a provocative read.

"When Bill Bratton became a Boston street cop after returning from serving in Vietnam, he was dismayed by the corrupt old guard, and it is fair to say the old guard was dismayed by him too. But his success fighting crime could not be denied. Propelled by extraordinary results, Bratton had a dazzling rise, and ultimately a dazzling career, becoming the most famous police commissioner of modern times. *The Profession* is the story of that career in full ... [this work] is both a searching examination of the path of policing over the past fifty years, for good and also for ill, and a master class in transformative leadership. Bill Bratton was never brought into a police department to maintain the status quo; wherever he went, from the New York Transit Police in the 80's to Los Angeles after Rodney King to New York again in the era of unchecked stop and frisk, root and branch reinvention was the order of the day, and he met the challenge. There are few other positions on Earth in which life-and-death stakes combine with intense public scrutiny and turbulent political cross-winds as they do for the police chief of a major American city. Now more than ever, when the role of the police in society is under a microscope like never before, and for good reasons, Bill Bratton's authority on the subject of improving law enforcement is profoundly useful. *The Profession* presents not only a fascinating and colorful life at the heights of law enforcement leadership, but the vision for the future of American policing that we sorely need"--
