Chemistry is, of course, a very practical subject, so strong emphasis is placed on the acquisition of laboratory skills. In Years 1 and 2 you will spend about four to six hours each week in the lab. In your third year, work on your research project will increase your lab time to about 10-12 hours per week.

SUTCLIFFE iii Preface to the First
Edition The student of inorganic chemistry
is fortunate in having a wide choice of
textbooks covering the descriptive and
theoretical aspects of the sUbject. There is
no comparable choice of textbooks
covering practical inorganic chemistry.

Moreover, there is a tendency for many students to draw an unfortunate distinction between chemistry taught in the lecture room, and laboratory work. Consideration of these points prompted the preparation of this book, in which we have attempted to emphasize the relationship between theory and practice.
