Prepare students for Algebra—appropriate for both middle school and high school students. Solid preparation for algebra and geometry Integers and algebraic concepts are introduced beginning in Chapter 1 to develop students' algebraic thinking skills. Throughout the text, algebraic concepts are connected to arithmetic skills to build on what students know. Geometry concepts are integrated when appropriate to foster connections. An emphasis on mastery of basic skills. The text provides numerous opportunities to assess basic skills along with abundant remediation and intervention activities. Daily spiral review provides practice on prerequisite skills, and an in-text Skills Handbook offers instruction for all basic skills.

Algebra success for all Basic concepts and properties of algebra are introduced early to prepare students for equation solving. Abundant exercises graded by difficulty level address a wide range of student abilities. The Basic Algebra Planning Guide assures that even the at-risk student can acquire course content. Multiple representations of concepts Concepts and skills are introduced algebraically, graphically, numerically, and verbally—often in the same lesson to help students make the connection and to address diverse learning styles. Focused on developing algebra concepts and skills Key algebraic concepts are introduced early and opportunities to develop conceptual understanding appear throughout the text, including in Activity Labs. Frequent and varied skill practice ensures student proficiency and success.

Comprehensive instructional support for proof Multiple formats are supported through mastery including two column, paragraph, flow, and indirect proofs. Students learn to value the need to think logically and present ideas in a logical order. Solid coverage of both structure and applications Traditional geometry concepts and logical reasoning are emphasized throughout, while measurement and applications
