This is a handy guide aimed to help students; teachers and researchers understand how to use Information Communication Technologies in education and research effectively. The content provides the required information to develop the ICT literacy and skills which are necessary to guide them successful in their professional and research activities. The book also examines various research findings on the use of ICT in the fields of education and educational research. The book familiarise different ICT tools and techniques along with the hardware and software components to integrate into teaching and learning process and research. The book tries to encourage the teachers to adopt new education technology in the classroom. The book also gives right guidance to the teacher educators and student teachers about the current trends and use of ICT tools and social media networks in educational contexts. This book is useful for all those who seek to more accurately define the new literacies required for success in online and offline environments. The author also has taken into consideration the ICT elements included in the curriculum of teacher education programmes of various universities in India at UG and PG level.
