## 10 Steps to Solving a Programming Problem | by Valinda ...

Programming is often the way that we  
create a representation for our solutions.

Therefore, this language representation  
and the process of creating it becomes a  
fundamental part of the discipline.

Algorithms describe the solution to a  
problem in terms of the data needed to  
represent the problem instance and the set  
of steps necessary to produce the intended  
result.
