reader provides a comprehensive grounding in critical thinking as the foundation for close reading and effective writing. Just as important, by exposing the reader to interesting and insightful prose by a diversity of top writers, the reader is motivated to respond in writing and discussions. By thinking, reading, and writing on three increasingly difficult levels - literally, interpretively, and critically - readers can better learn the processes and skills necessary to be successful in all their writing experiences.

An essential reading for all those, who are interested in studies about and experiences with the use of poetry as a writing intensive pedagogy in a US community college or on a general undergraduate education level.

Nexus presents the traditional rhetorical modes as different ways of thinking about our contemporary world, no matter the medium. It builds on students' multimedia communication skills by using a mix of readings in contemporary and traditional genres to improve students' college writing skills. Nexus starts where students' interests lie—with engaging essays, interviews, blog conversations, Web sites, and YouTube videos. These “readings” are presented in a lively, highly visual format that draws on the daily environment in which students are immersed, including electronic and visual sources that

are stimulating, energizing, and directly related to topics they are studying. While the format of Nexus is contemporary and stimulating, the content is substantive and pedagogically sound. Students are asked continually throughout this text to pull ideas from multiple media and respond to them first with critical thinking and writing and then by creating a project through a written, oral, visual, or electronic medium of their own choice.

Serves both as a script for performance and as a text for high school and college theater and English classes. This self-contained script brings together different scenes from Shakespeare's plays to portray women "in all their infinite variety." Two narrators, a man and a woman, introduce and comment on these scenes, weaving together the different characters and situations. This book combines literary and theatrical techniques in examining Shakespeare's women. Its promptbook format provides clear, helpful stage directions on pages facing each of the scenes. Also helpful are concise glosses and footnotes to define difficult words and phrases plus a commentary to explain each scene in its dramatic context. Other features

The Blair Reader encourages public discussion in the wider world by reading actively as well as critically and responding to the ideas of others. After more than twenty-five years of teaching composition, the authors have come to see reading and writing as interrelated activities: To write effectively, one must also read actively and critically. The authors have found and strongly believe that a reader is enriched and engaged when he/she view the reading and writing they do as a way of participating. From the beginning, the goal in The Blair Reader has always been to encourage these discussions in the wider world by responding to the ideas of others.
