[Pure Core 1 - MPC1 - AQA All About Maths](#)  
Pure Maths can be thought of as the heart of mathematics. It consists of the core aspects of maths before any application to the real world. There are many extensive topics in Pure Maths but before any student can explore these, they must learn the basics at A-Level.

Revision book written specifically for the Edexcel AS and A Level exams offering: worked examination questions and examples with hints on answering examination questions successfully; test-yourself section; key points reinforcing what students have learned; and answers to all questions.

Further Pure Maths 1 was written to provide thorough preparation for the revised 2004 specification. Based on the first editions, this series help you to prepare for the new exams.

This text examines the enormous pressure placed on University students in Japan, Korea and Taiwan which have led to the rapid expansion of the "cramming" industry and to a growing number of students looking to religion and spirituality for guidance. The book examines the issue of the rise in youth suicides, and the dramatic rise in levels of cheating; both raising fundamental questions about the education system in the late 1990s.

In Growing up with Tanzania. Karim Hirji, a renowned Professor of Medical Statistics and Fellow of the Tanzania Academy of Science, presents a multi-faceted, evocative portrait of his joyous but conflicted passage to adulthood during colonial and early-Uhuru Tanzania. His smooth style engages the reader with absorbing true tales, cultural currents, critical commentary and progressive possibilities. By vibrantly contrasting the hope-filled sixties with the cynical modern era, he also lays bare the paradoxes of personal life and society, past and present

A good grade at A Level or Scottish Higher Grade can depend on the student's ability to tackle exam questions confidently and to understand the technique involved in answering questions accurately. The aim of this text is to help students learn how to answer questions in an exam environment. It provides an insight into the mind of the examiner, highlighting what makes a good answer, how marks are allocated, and what the most common mistakes are. Questions are taken from past papers, or newly written by the authors, with revision summaries, answers with full working and examiner's tips. They are an ideal complement to A Level study guides.

NO description available

A syllabus-specific textbook providing worked examples, exam-level questions and many practice exercises, in accordance to the new Edexcel AS and Advanced GCE specification.

Drawing on over 10 years' experience of publishing for Edexcel maths, Heinemann Modular Maths for Edexcel AS and A Level brings you dedicated textbooks to help you give your students a clear route to success, now with new Core maths titles to match the new 2004 specification. Further Pure 2 replaces Pure 5 in the new specification.

Drawing on over 10 years' experience of publishing for Edexcel maths, Heinemann Modular Maths for Edexcel AS and A Level brings you dedicated textbooks to help you give your students a clear route to success, now with new Core maths titles to match the new 2004 specification. Further Pure 3 replaces Pure 6 in the new specification.
