Natural and manmade disasters do not affect everyone equally, especially when resources are not equally accessible. Girls and women in particular face heightened risks of violence and abuse and many countries bar female-headed households from receiving aid. Across the globe, a wider understanding of gender issues is needed to craft effective policies and carry out equitable practices in disaster planning and response. The first full-length reference of its kind, Issues of Gender and Sexual Orientation in Humanitarian Emergencies brings together data pinpointing disparities with practical suggestions toward improving post-event adjustment for all. Arguing forcefully for an egalitarian lens in humanitarian aid, the book offers guidelines that governmental agencies and NGOs alike can implement at all levels of preventive and relief efforts to better assist victims and minimize further trauma. Salient areas covered include gender differences in the effects of disasters on children and adolescents, the heightened risk of domestic violence in disasters and challenges facing the LGBTI community in relocation. In addition, examples from a cyclone event in Australia relate the experiences of victims, organizations and aid workers to larger social issues. Included among the topics: Gender and the impact of disaster on youth. Personal network structure and gendered well-being in disaster and relocation. Sexual and gender minorities in humanitarian emergencies. Gender as hazard in disaster planning and response. The relationship of disaster and domestic violence. The impact of disasters on workers and services. Addressing a major threat to public and social health. Issues of Gender and Sexual Orientation in Humanitarian Emergencies is an essential sourcebook for researchers and professionals working with NGOs, disaster management, domestic violence, humanitarian relief and refugee health.

EU citizenship and Free Movement Rights examines how EU citizenship reconstructs in unexpected ways what citizenship as a status means and stands for in relation to family reunification, social rights, expulsion and discusses the effects of Brexit for EU citizens.

The most important and recent judgments of the CJEU Given the ever increasing importance of indirect taxation as a source of revenue for governments, and the increasing complexity of legal frameworks as well as the increasing number of countries adopting indirect taxation, it is highly important to closely watch how the law is actually applied in practice. The main driving force in this area is undoubtedly the Court of Justice of the European Union. Upon the European Commission’s initiative the Institute for Austrian and International Tax Law started a research project which will not only lay the groundwork for a thorough analysis but alsokeep track of the ongoing developments in this area. This book places special focus on the role of the Court of Justice of the European Union seen from different perspectives. Moreover, it analyses selected topics (e.g. abuse and anti-avoidance measures, taxable base and rates, treatment of Public Bodies, exemptions, and deductions) by looking at the most important and recent judgments of the Court of Justice of the European Union. Experts from all over the world, not just from academia but also government representatives and tax practitioners, have given their input and helped us put together what is an informative and worthy read for anyone dealing with indirect taxation on a professional basis.

To get the best answer-in business, in life-you have to ask the best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet often discouraged in our schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply, imaginatively, and “beautifully.” In this fascinating exploration of the surprising power of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbn, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from “How can I adapt my career in a time of constant change?” to “How can I step back from the daily rush and figure out what really makes me happy?” By showing how to approach questioning with an open, curious mind and a willingness to work through a series of “Why,” “What if,” and “How” queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.

This book constitutes the thoroughly refereed proceedings of the 5th National Conference of Social Media Processing, SMP 2016, held in Nanchang, China, in October 2016. The 24 revised full papers presented were carefully reviewed and selected from 109 submissions. The papers address issues such as: mining social media and applications; natural language processing; data mining; information retrieval; emergent social media processing problems.
