A Short Guide to Writing about History is an ideal complement for any history course intended to teach students to think and write like historians. This engaging and practical text will teach students how to go beyond reporting the basic dates and facts of their history books and show them how to infuse their writing with their own ideas and unique perspective. Covering brief essays and the documented resource paper, the text explores the writing and researching processes, different modes of historical writing (including argument), and offers guidelines for improving style as well as documenting sources.

With the Tao of Composition, no longer does producing a paper become a tedious process filled with endless redundancies and plagiarism. Now students can learn and apply a basic organizational structure to their writing without wondering how to construct the basic elements of any academic essay. No longer will you have to sit in front of the computer the night before the paper is due and regurgitate stream-of-consciousness drivel connected loosely with evidence.

Doing Collaborative Research in Psychology offers an engaging journey through the process of conducting research in psychology. Using an innovative team-based approach, this hands-on guide will assist undergraduates with their research—in their courses and in collaboration with faculty or graduate student mentors. The focus on this team-based approach reflects the collaborative nature of research methods and experimental psychology. Students learn how to work as a team, generate creative research ideas, design and pilot studies, recruit participants, collect and analyze data, write up results in APA style, and prepare and give formal research presentations. Students also learn practical ways in which they can promote their research skills as they apply to jobs or graduate school. A unique feature to this book is the ability to read chapters of the text either sequentially or separately, which allows the instructor or research mentor the flexibility to assign those chapters most relevant to the current state of the research project.

"I loved this book not just from the first chapter or the first page but from the first paragraph... The voice is just so honest and riveting and insightful about creativity and life." –Curtis Sittenfeld #ReadWithJenna Book Club Pick as Featured on Today Emma Roberts Belletrist Book Club Pick A New York Times Book Review's Group Text Selection An extraordinary new novel of art, love, and ambition from Lily King, the New York Times bestselling author of Euphoria Following the breakout success of her critically acclaimed and award-winning novel Euphoria, Lily King returns with another instant New York Times bestseller: an unforgettable portrait of an artist as a young woman. Blindsided by her mother's sudden death, and wrecked by a recent love affair, Casey Peabody has arrived in Massachusetts in the summer of 1997 without a plan. Her mail consists of wedding invitations and final notices from debt collectors. A former child golf prodigy, she now waits tables in Harvard Square and rents a tiny, moldy room at the side of a garage where she works on the novel she's been writing for six years. At thirty-one, Casey is still clutching onto something nearly all her old friends have let go of: the determination to live a creative life. When she falls for two very different men at the same time, her world fractures even more. Casey's fight to fulfill her creative ambitions and balance the conflicting demands of art and life is challenged in ways that push her to the brink. Writers & Lovers follows Casey—a smart and achingly vulnerable protagonist—in the last days of a long youth, a time when every element of her life comes to a crisis. Written with King's trademark humor, heart, and intelligence, Writers & Lovers is a transfixing novel that explores the terrifying and exhilarating leap between the end of one phase of life and the beginning of another.

When it was first published twenty years ago, The Bedford Guide for College Writers brought a lively and innovative new approach to the teaching of writing. Since that time, authors X. J. and Dorothy M. Kennedy have won praise for their friendly tone and their view, apparent on every page of the text, that writing is the "usually surprising, often rewarding art of thinking while working with language." More recently, experienced teacher and writer Marcia F. Muth joined the author team, adding more practical advice to help all students – even those underprepared for college work – become successful academic writers. While retaining the highly praised "Kennedy touch," The Bedford Guide continues to evolve to meet classroom needs. The new edition does even more to build essential academic writing skills, with expanded coverage of audience analysis,

Innovative and practical, this text helps prepare teachers to support the literacy learning needs of all children in grades K-6, including academically, linguistically, and culturally diverse students. It features original teaching cases written by preservice teachers enrolled in field-based reading/language arts methods courses, accompanied by commentaries written by experienced teacher educators and skilled classroom teachers. High-interest content and a reader-friendly format encourage critical and reflective thinking about topics important to effective literacy instruction. By promoting reflection about case issues, the text helps prepare future teachers to respond to teaching narratives presented on the practical applications section of the PRAXIS II, an examination required in most states for teacher licensure. The authentic cases candidly and poignantly describe preservice teachers' plans, problems, hopes, disappointments, dilemmas, and reflective thinking as they address the multilayered complexities and ambiguities associated with learning to teach reading and language arts in elementary classrooms. These teaching stories reveal glimpses of literacy instruction and allow us to enter real classrooms and experience the wide varieties of situations that reading/language arts teachers encounter daily. Although the cases are grouped according to specific dimensions of literacy theory and pedagogy, just as in real classrooms, other issues are woven through each case as well. The commentaries provide scholarly, and sometimes contrasting, perspectives and approaches through which readers might consider the issues presented in the cases. The commentaries represent only particular perspectives, but readers are encouraged to explore and consider as many perspectives and issues as possible regarding each case. Each chapter includes helpful pedagogical features: * New or critical concepts and terms listed at the beginning of each chapter alert readers to what might be unfamiliar vocabulary. * Applications and Reflections pages help readers take an active part in analyzing, documenting, and talking about the particular issues portrayed in the case narratives. Using the questions on these pages, the cases and accompanying commentaries can be read and discussed as a whole class activity, in small collaborative groups, or by individuals. The questions can also be used by readers to guide their own case writing initiatives. * Margin References direct readers to correlated readings for the strategies and parallel concepts mentioned in the cases and commentaries. Suggested readings can be discussed within the format of literacy study groups. * Annotated Bibliographies at the end of each chapter help readers construct more in-depth knowledge for the instructional strategies and activities discussed in the teaching cases. The cases, commentaries, and pedagogical features in this distinctive text provide rich opportunities for readers to discover what they need to know and how they need to think in order to teach reading and
