the domain of social media studies. Based on the works of Kuhn (1970), Pfeffer (1993), and Thompson and Tuden (1959), the level of paradigm development was defined as the degree of consensus regarding: research topics, methods, and theories used in a given field of study.

## ~~Paradigms in Social Media Studies — DiVA portal~~

The researcher-as-bricoleur-theorist works between and within competing and overlapping perspectives and paradigms. Research is an interactive process shaped by researcher's personal history, biography, gender, social class, race and ethnicity and those of the people in the setting. The bricoleur knows that there is no value-free science. Thus the narratives, or stories, scientists tell are ...
