threatening the security of the rig. Even new boats are not immune from problems - they inevitably deform under the considerable loads of their rig, and therefore will need to be re-tuned after a period of use. Rig tuning might seem to some like a black art, but once you master the basics you will be set for life.

How to tune your rig - [boats.com](http://boats.com)

Rigging is a significant part of the process of building a model ship. It can be tedious and time-consuming however putting the effort in adds to the beauty of your finished model. In general, the instructions on rigging provided by the manufacturers of model ship kits are fairly sparse. Whilst there are several specialised and very detailed ...
