Milady Standard Esthetics Fundamentals, 11th edition, is the essential source for basic esthetics training. This new edition builds upon Milady's strong tradition of providing students and instructors with the best beauty and wellness education tools for their future. The rapidly expanding field of esthetics has taken a dramatic leap forward in the past decade, and this up-to-date text plays a critical role in creating a strong foundation for the esthetics student. Focusing on introductory topics, including history and opportunities in skin care, anatomy and physiology, and infection control and disorders, it lays the groundwork for the future professional to build their knowledge. The reader can then explore the practical skills of a skin care professional, introducing them to the treatment environment, basic facial treatments, hair removal, and the technology likely to be performed in the salon or spa setting. Milady has evolved for over 85 years to become what it is today, the cornerstone of beauty and wellness education. We are very excited and proud to announce the latest edition of Milady Standard Cosmetology, the most commonly used resource in cosmetology education. For decades since our first textbook published, it has been our commitment to provide students with the foundation in the principles and skills needed to master the science and art of cosmetology, and with this latest version that commitment has not wavered. For the new edition, celebrity stylist Ted Gibson served as Creative Director on the project. The result is a brilliant new design with over 750 new photos and a gorgeous layout, providing a visually stunning resource to engage today's learner. We also recruited a team of twelve authors, made up of top professionals and educators in the industry, to provide the most current information on concepts and techniques. During our extensive peer review and development process, we were asked for a resource that placed emphasis on essential content needed for licensure success, and we feel confident that we delivered. Milady Standard Cosmetology will continue to be a source of education that students can count on, not only while in school, but throughout their careers. Step-by-step technicals: Photos and accompanying text help students visualize procedures as they move through every step of a process. The easy-to-follow format significantly raises self-confidence, making a seamless transition to hands-on applications. Real-life scenarios: On the last page of every chapter, we offer students a chance to apply their new knowledge. Hypothetical scenarios require students to use decision-making skills mastered in that chapter. It is a chance for students to mentally leave the classroom and envision themselves as successful professionals. Key concepts: Throughout each chapter, we use imaginative ways to call attention to key points. Look for colored text, bold print, bullets, and charts. These relate to important theories your students must remember and makes chapter review for tests much easier! Learning strategy: More complex technicals include a checkmark beside any step that calls for specific safety precautions. This indicates an ideal moment to check on a client's comfort level. - Publisher.
