Sastun: My Apprenticeship with a Maya Healer (2002) - IMDb

A sastun has been the means of divination and spiritual power for the Mayan H'mens since ancient times. The discovery of a sastun is a capping achievement for a healer, who, even without the spiritual gifts both acknowledged and bestowed by it, possesses a vast knowledge of the actions and interactions of plants in the treatment of illness.

meditation and herbs to rejuvenate the mind, body and soul. In *Spiritual Bathing*, Rosita Arvigo and Nadine Epstein explore traditions—many lost or forgotten—that have been intertwined with religion, spirituality and culture since ancient and medieval times. From baptism to mikvahs to charity baths, these traditions can serve as a way to reconnect with nature or God; rejuvenate the mind, body and soul; and help relieve anxiety, insomnia and depression. Encompassing knowledge from 15 world traditions, this beautifully illustrated guide features detailed instructions to create nurturing and restorative spiritual bathing rituals both at home and elsewhere.

People throughout time and place, no matter their belief system, have sought to discover causes and cures for illness and disease. Among Westerners is a groundswell to augment biomedicine with holistic

practices inherent in ethnomedicines of non-Western traditions. Yet missing are awareness and knowledge of the foundations and outgrowth of these alternative concepts. Erickson fills this gap by clearly explaining the basic organizing principles that underlie all medical systems, the full range of theories of disease causation, the geographical distribution of medical practices, and the historical trends that led to biomedical dominance. Her efficient, balanced approach highlights commonalities among the worlds vast and diverse medical systems, making ethnomedicine easier to internalize and to apply in clinical settings.

Drawing from ethnographic examples found throughout the world, this revised and updated text, hailed as the “ best general text on religion in anthropology available, ” offers an introduction to what

anthropologists know or think about religion, how they have studied it, and how they interpret or explain it since the late 19th century.

Wind in the Blood is a detailed look at Mayan medicine on Mexico's Yucatan peninsula and its similarities to Chinese traditional medicine. It was originally published in Spanish as a manual for health workers in Mayan areas to bridge the gulf between Western medical technique and Mayan medical knowledge. Mexican physicians Hernan Garcia, Antonio Sierra, and Hiberto Balam discovered that the similarities between Mayan medicine and traditional Chinese medicine were profound and helpful in their medical work.
