When it comes to sex education, parents of adolescent girls often know just as little about where to start as girls themselves. Even the mention of sex education or puberty can make everyone feel uncomfortable, nervous, or insecure. In The Girls' Guide to Sex Education, award-winning youth sex education expert Michelle Hope offers down-to-earth, supportive sex education guidance as she addresses the most pressing questions that girls have about sex, puberty, and relationships-directly and without judgment. The Girls' Guide to Sex Education will arm girls with a complete understanding of their body and, as a result, will empower them to make informed, healthy decisions.

Children and adolescents with Autism Spectrum Disorders (ASD) require specialized teaching strategies when learning about puberty, sexuality and relationships. This professional resource offers practical teaching advice geared towards the needs of young people on the autism spectrum.

Beginning with information on good practice, policy, teaching methods and recent research, the book then divides into key sex education topics that assist professionals in developing their own individualized and developmentally appropriate curricula. Covering issues of gender, public and private, puberty, hygiene, emotions, sex and more, each topic provides an overview of the difficulties that children with autism might experience, discussion and activity ideas and photocopyable resources including instructional stories, checklists and illustrations. The final section demonstrates how to respond to ongoing patterns of inappropriate behaviour and put together a behaviour plan. Aiming to explain and support the child's developing sexuality while also addressing crucial issues of safety, this book is a much-needed teaching manual for all professionals working with children and young adults with autism including educators in mainstream and special education, psychologists, therapists and social workers.

"Where do babies come from?" The prospect of this age-old question is one that causes significant apprehension for many professionals working with children, but this isn't where the anxiety ends. This book argues that it is essential to have clear strategies to support children's questions about relationships, growing up and sex so that they are enabled to develop positive and confident views about themselves and those around them. It examines important concerns such as the role of media in children's lives in shaping their views on relationships and explores how issues of gender and sexuality are considered more fluidly. Whether working in an academy, free schools, faith schools, the independent sector or elsewhere this book supports you to help children to deal with a wide range of relationships issues, meeting the requirements of the new legislation on relationships education for primary aged children as a foundation for relationships and sex education. Drawing on research with teachers about their apprehensions about teaching the subject and children's experience of its delivery, the authors give a full picture of common concerns and difficulties and how to successfully meet them and support children from 3-11, and the transition to secondary school. Topics covered include platonic friendships, developing self-respect and respect for others, and enabling personal choice and safety. Sacha Mason and Richard Woolley explore issues surrounding notions of age and stage development. They discuss how children develop at different rates and that each child is unique in relation to learning in this area. They outline a distinct pedagogical approach to managing children's individual needs for relationships and sex education. They also look at supporting children with SEND when considering how to implement relationships education in primary schools. This second edition includes new chapters on children's development and needs, and developing inclusive relationships education. The book has been updated throughout with summaries of the latest research, case studies, ideas for developing practice and signposts to key websites and resources. The chapters provide all the support you need to confidently promote children's healthy development.

Effective Relationships and Sex Education (RSE) provision is a right for all learners, yet it often proves challenging for educators and caregivers, particularly those teaching learners with additional needs. This book provides practical guidance for teachers and Special Educational Needs Coordinators (SENCOs) who require the knowledge, skills and confidence to deliver effective RSE to young people with Special Educational Needs. It offers both specific support tailored to pupils with Profound & Multiple Learning Difficulties (PMLD) and Severe Learning Difficulties (SLD), Down ' s Syndrome and Autism, as well as broad support to embed a whole-school approach in mainstream and special settings. Chapters guide the reader through a range of key topics, with advice, strategies and ready-to-use resources to teach RSE in a positive and respectful way. This much-needed book will be invaluable for education professionals, residential care providers, and anybody looking to support young people with Special Educational Needs as they learn about relationships and sex. It will also help schools to meet statutory requirements covering the delivery of Relationships and Sex Education.

Do you feel as if the ground beneath your feet is constantly shifting? It ' s not surprising if you do! Teachers today are faced with a range of complex, current issues that impact on teaching and learning as well as the need to understand and address a raft of new initiatives, directives and policy changes. All too often, policy is introduced and new agendas arise with little or no accompanying guidance. This accessible book takes a highly practical focus, provides the required information in one place, unpicks key elements of legislation and policy, and suggests practical approaches and resources that could be used in the classroom to successfully address the issues. It will increase your confidence and help you get to grips with areas such as safeguarding, e-safety, radicalisation, sex and relationships education, gender and identity, prejudice-based bullying, the issues of disadvantaged children, and mental health and well-being.
