Stargate: Atlantis RELIQUARY is set somewhere in the back-half of SG:A's first season. It isn't essential, but readers may want to watch the SG1 episode "Torment of Tantalus" before picking this novel up. The best part of this story is the antagonist. Just when you think you've figured him out, he turns on a dime and pivots into another direction.

### *Stargate Atlantis: Reliquary by Martha Wells*

Reliquary contains none of the reams of extraneous, inconsequential detail that are so common in the other Atlantis books (even the decent ones) but explains the plot and setting well. I found the premise was plausible and well-executed within the boundaries of the show's universe.
