Sustainable development is an approach to economic  
planning that attempts to foster economic growth while  
preserving the quality of the environment for future  
generations. Despite its enormous popularity in the last two  
decades of the 20th century, the concept of sustainable  
development proved difficult to apply in many cases,~~

primarily because the results of long-term sustainability analyses depend on the particular resources focused upon.

Environmental law - Sustainable development | Britannica  
Sustainable development law and policy has only begun to be addressed by existing institutions, and not in an adequately integrated way. In public international law, the overarching concept of sustainable development vitiates fragmentation. It inspires cooperation, coherence and innovative governance systems.

## What is Sustainable Development Law

Abstract. This book analyses recent developments in international sustainable development law (ISDL), a field

emerging at the intersection between international economic, environmental, and social law. Hundreds of new bi-lateral, regional, and global treaties have been negotiated in the areas of trade, environment, and development over the past two decades, yet most of them face profound problems in implementation.

Sustainable Development Law: Principles, Practices, and ...  
In the last several years, the field of Sustainable Development Law has shifted, to an integration of international economic, social, and environmental law with the goal of reducing poverty in developing nations. Still, one of the major issues in this area is whether “ sustainable development ” is law, soft law, or policy.

Sustainable Development Law (SDL) Research Guide -  
GloLex

For some, the answer to the question of its relationship to the law is straightforward: sustainable development does not belong to law; it may be an important philosophical or political objective, but it is not a legal one.<sup>3</sup> Its connection with the law is restricted to the fact that it may contribute to law formation. As a political objective, it will exert an impact on international negotiations, and as such may influence the content of the law while remaining separate from it.
