Hi, Bert, it should be noted that the reasons your FI light stays on constantly or flashes and your bike will or will not start and may turn over or may not and run great or sputter, these conditions will vary from bike to bike depending on the year, make, and model and you should always refer to your owners/service manual for proper diagnostic procedures.

[SOLVED: Reset FI light 2007 Suzuki Boulevard M109R - Fixya](#)

FI light and no pump whirrr I just saw one of the first, prolonged instances of the FI light staying on. The engine would crank but not fire. The difference this time is the amount of time that I hear the fuel pump actuating. It used to whirrr for about 3 seconds and in this instance, it was only about 1 sec or less. Definitely not normal.
