Chapter 1. Overview of TCP/IP. All of us who use a Unix desktop system—engineers, educators, scientists, and business people—have second careers as Unix system administrators. Networking these computers gives us new tasks as network administrators. Network administration and system administration are two different jobs.

1. Overview of TCP/IP - TCP/IP Network Administration, 3rd ...

TCP/IP Network Administration is a complete guide to setting up and running a TCP/IP network for administrators of networks of systems or users of home systems that access the Internet. It starts with the fundamentals: what the protocols do and how they work, how to request a network address and a name (the forms needed are included in an appendix), and how to set up your network.
