Well, I've tried to blend my post-WWII childhood memories, rooted in rural California, my practical experience during the 1960s Berkeley Riots, my formal Intellectual and Cultural History of the Modern World studies at the University of California, Santa Barbara, and my experiments as an artist, actor, puppeteer and writer over the last fifty years -- to build these poems in the Oral Tradition to be my sincere and humble contribution to American Poetry and my personal attempt at Social Activism by speaking deeply from my heart and mind on behalf of all children and mental health patients all over the world. Thanks.

Many trainee primary teachers are uncertain as to the place and purpose of RE in primary schools. This book is designed to alleviate such fears and give trainees the security and confidence to teach RE effectively. Trainees are encouraged to recognise their own religious position and understand how they handle their own beliefs and commitments in the classroom. In addition, they will learn how to be sensitive to children's religious viewpoints, allowing children to share their beliefs in a secure and supportive environment. A range of strategies help readers to provide engaging and appropriate RE across the primary age phase.

Explains about the history, beliefs, important figures, and sacraments of the Catholic Church.

Bristling with intelligence and shimmering with romance, this novel tests the boundary between history and myth. Patrick Lewis arrives in Toronto in the 1920s and earns his living searching for a vanished millionaire and tunneling beneath Lake Ontario. In the course of his adventures, Patrick's life intersects with those of characters who reappear in Ondaatje's Booker Prize-winning The English Patient. 256 pp.

Both anthologies are about New Orleans: the past and the present. This author has grown up in this city, and there is a certain timelessness about it - the past definitely influences the present. All the plays are permeated with the sensuousness, decadence and bewilderment of brave and driven people living in chaos, confusion, extreme pleasure and delight. I hope you get a taste of this rich jambalaya of life as you experience these plays. Volume Two contains historical plays, mostly Victorian, with characters driven by stratified society and tradition. Knowledge of New Orleans history made me want to adapt Uncle Vanya. I loved the play but felt its details were too Russian. I took the bones of Vanya and put it on a plantation called Waverly, the last sugarcane plantation in Louisiana, and called my play Uncle Victor. That play won a number of awards and hooked me on historical drama. I also researched Edgar Degas' visit to New Orleans in 1872 and wrote a nine-cast show, so struck was I by all Degas' relatives who had lived with him in 1872. Degas had tried to save his Uncle's failing cotton business and create new roots in the city of his mother. He fell prey to scandal and decadence. I spent days visiting Kate Chopin's house in Cloutierville, La. and interviewed descendents of Chopin's lover Albert Sanpitié and town members about the scandals of her life. I researched in French and English all the books on Degas. I did similar research in New York and Paris for Beckett at Greystones Bay and John Singer Sargent and Madame X, which are loosely tied to New Orleans. We are glad Degas did go back to Paris and paint and didn't succumb to the temptations of New Orleans. We are pleased Sargent refused to change his scorned portrait of Madame X and that Kate Chopin forged a way to raise her six children and still write.
