The Terra Nova Expedition, officially the British Antarctic Expedition, was an expedition to Antarctica which took place between 1910 and 1913. It was led by Robert Falcon Scott and had various scientific and geographical objectives. Scott wished to continue the scientific work that he had begun when leading the Discovery expedition to the Antarctic from 1901 to 1904.

November "Nova" Terra was a member of the Terra family, one of the Terran Confederacy's rich and powerful "Old Families". She is the youngest child of Bella and Constantino Terra, and had two siblings -- Clara and Zeb. The family lived in the Terra Skyscraper in Tarsonis City, Tarsonis. She possessed a degree of empathy that was generally lacking in the Old Families, a trait that did not go unnoticed.

Terra Nova: Jupiter Lite | Cycling UK

A planet in the Tau Ceti System, Terra Nova was terraformed to Earth's conditions and seeded with appropriate ecosystems sometime between 25000 to 100000 BCE by unknown means, most probably by intelligent extraterrestrial actors, and made accessible to human civilization exclusively through an anomalous ancient superstructure on the surface of Earth's moon, the Hyperspace Gate, leading to a receptor gate in outer orbit of the Tau Ceti system's largest gas giant.

Evangeline is living the life of a normal teenagergoing to school and hanging out with friendsuntil mysterious, severe symptoms begin appearing. After passing out in the middle of a party, life as she knows it spirals beyond her grasp. She is then diagnosed with a rare, genetic blood disorder that causes her body's white blood cells to kill the red ones. In the delirium of her deteriorating health, a door to a parallel world opens before her; however, once she steps through it, the portal closes, and she is unable to return to Earth. The place Evangeline now finds herself in is called Terra Nova, a world wherein vampires rule supreme, with no traces of humanity left to speak of. Curious but afraid, she quickly learns that Terra Nova is not the shadow-side of Earth, but rather the tragic result of government experimentation. In order to survive, she must keep her mind open and accept the changes her body is undergoing; soon enough, those who she initially thinks are murderers become her trainers, whose help she must enlist if she ever hopes to return homeand soon enough, a romantic bond begins to bloom. Meanwhile, Evangeline's brother and friends back on Earth try to figure out what happened to her, and how the government is involved, and how to bring her home. Unbeknownst to any of them is the mysterious outcast Bambi, whose secrecy disguises her power in making a devastating choice: save one world at the risk of destroying the other.

A look at what the American lifestyle has done to the environmentand how to move toward a better future. In the last century, three powerful forcesoils, cars, and suburbsbuoyed the American dream. Yet now, the quality of life in the United States is declining due to these same three forces. Our dependence on oil is a root cause of wars, recessions, and natural disasters. Cars consume an outsize share of our incomes and force us to squander time in traffic. Meanwhile, expensive, spread-out suburbs devour farmlandand in a vicious cycle, further entrench our reliance on cars and oil. In Terra Nova, conservation ecologist Eric W. Sandersonthe national bestselling author of Mannahattaoffers concrete steps toward a solution. He delves into natural history, architecture, chemistry, and politics, to show how the American relationship to nature has shaped our past, and how it can affect our future. Illustrated throughout with maps, charts, and infographics, Terra Nova demonstrates that it is indeed possible to achieve a better world. Sanderson commendably outlines a new way of life . . . designed to sustain American prosperity, health, and freedom for generations to come.Publishers Weekly

The city of Terra Nova was founded on a lie: that the spirits who cross over from the spirit world are evil and must be captured for the safety of humanity. But Molly Stout and her family have learned that the spirits are thinking, feeling beings, enslaved to enrich the wealthy, especially the spirit-harvesting company Haviland Industries and its founder, Charles Arkwright. With the help of her family and the aetheric spirits Ariel and Legerdemain, Molly has been fighting to free the spirits. But Terra Nova runs on spiritual machinery, and for each factory they shut down, another takes its place. As Haviland Industries and the authorities of Terra Nova tighten their nets around Molly, she begins to question whether she is really making any difference or if her rebellion puts people and spirits at risk. Terra Nova is the sequel to Dominion.

Fall of Terra Nova is the fifth book in the epic science fiction series that chronicles humanity's first interstellar confederation, torn apart by religious strife and extremism. In this latest book of the Star Crusades Uprising series, the action shifts to Terra Nova, the shining beacon of humanity and the single most important planet in the Confederacy. Guarding access to this isolated planet is the Anomaly. This mysterious location is the gateway to Terra Nova and the rest of the Confederacy. When the Echidna Union begins moving scores of ships to the Anomaly, Admiral Jarvis must make a critical decision that could win or lose the war. Either she continues Operation Perdition and reclaims the lost colonies of Proxima Centauri, or she sends the fleet to take control of the Anomaly and the route to Terra Nova in one final apocalyptic battle. Spartan and his comrades aboard the Yorkdale train and prepare their new forces for what will be the last battles of the war. They are well equipped and highly motivated, but just when they seem to be making progress, they hit a new problem. Racism and betrayal appears at the moment when the Confederacy needs every man and woman for the final challenge. Spartan, Teresa and Gun will have to use every ounce of their skill and cunning if they are to come through alive. Fall of Terra Nova is a classic work of realistic military science fiction set against the background of the first interstellar human empire. The Star Crusades series currently includes the original Star Crusades Uprising and brand new Star Crusades Nexus series that follows the story of the Centauri Alliance seventeen years after the end of the Uprising.

Secrets of master guitarists, revealed in conversation. Guitar Talk offers interviews with many of the most creative guitarists of our time. This new book presents these conversations, between Joel Harrison and Nels Cline, Pat Metheny, Fred Frith, Bill Frisell, Julian Lage, Elliott Sharp, Michael Gregory Jackson, Ben Monder, Anthony Pirog, Henry Kaiser, Mike and Leni Stern, Vernon Reid, Mary Halvorson, Nguyễn Lê, Rez Abbasi, Ava Mendoza, Liberty Ellman, Brandon Ross, Wayne Krantz, Dave Fucuzynski, Wolfgang Muthspiel, Miles Okazaki, Sheryl Bailey, Rafiq Bhatia, and Ralph Townerltwenty-seven great guitarists in all. An enormous range of approaches and sounds exist in the modern guitar. The instrument can howl, scrape, scratch, scream, sing, pluck, and soothe. What stands out in this book is not so much the instrument itself, rather the wonderful and idiosyncratic personalities of these bold souls, their sometimes wild, often zigzagging, and ultimately profound journeys toward beauty, meaning, and excellence in their work. We find out that jazz icon Bill Frisell won a high school band contest playing R&B tunes, beating out future members of Earth Wind and Fire. We learn which of Nels Cline's compositions he wishes to have played at his funeral. Michael Gregory Jackson recounts painful episodes of racism as he stretched between the chasm of avant jazz, rock, and blues in the 1980s. Many more revelations, amusements, and philosophies about beauty.
