The Baobab: Fun Facts About Africa's Tree of Life
The single Australian baobab species, A. gregorii, called boob, or bottle tree, is found throughout the Kimberley region of Western Australia. Reaching heights of about 12 metres (39 feet), the tree features the characteristically swollen trunk of the genus and bears compound leaves that are completely shed during drought periods. The white flowers are large, perfumed, and pollinated by hawk moths.

Leaves. Leaves are palmately compound in mature trees, but seedlings and regenerating shoots may have simple leaves. Flowers. Flowers are born near the tips of ...

Adansonia - Wikipedia
Africa's iconic "Tree of Life". The majestic baobab tree is an icon of the African continent and lies at the heart of many traditional African remedies and folklore. The baobab is a prehistoric species which predates both mankind and the splitting of the continents over 200 million years ago. Native to the African savannah where the climate is extremely dry and arid, it is a symbol of life and positivity in a landscape where little else can thrive.

The Baobab Tree: Africa's Iconic "Tree of Life"
The Baobab Tree is also known as the Tree of Life
This massive tree is also known as the tree of life, because it has many useful properties. It acts like a huge succulent and its trunk is packed with up to 80% water. San Bushmen used to rely on these trees for water when the rivers started to run dry and when there was no rain.

Fun Facts about the Baobab Tree - Secret Africa
The classic African folktale retold for beginner readers ready to tackle slightly more complicated storylines and sentence structures. When the gods create a talking tree, they soon regret it because it won ' t be quiet. So they turn it upside down and bury

Baobab is a tree native to certain regions of Africa, Arabia, Australia and Madagascar. Also known by their scientific name Adansonia, baobab trees can grow up to 98 feet (30 meters) tall and...

Dear Baobab - The Official Book Trailer

The baobab tree story, which I wrote (the church version) is actually based upon a true story, told by Limakatso Nare, a Lutheran pastor who is currently serving a congregation in Louisiana. When he was growing up in his native Africa, he gathered for Sunday school under the baobab tree. Here he learned the Biblical stories of Noah and the ark, Jonah and the big fish, and the parables of Jesus. His Sunday school experiences inspired my story, Under the Baobab Tree.

Learning to survive in the harsh interior of Southern Africa, a former slave seeks shelter in the hollow of a baobab tree. For the first time since she was a young girl her time is her own, her body is her own, her thoughts are her own. In solitude, she is finally able to reflect on her own existence and its meaning, bringing her a semblance of inner peace. Scenes from her former life shuttle through her mind: how owner after owner assaulted her, and how each of her babies were taken away as soon as they were weaned, their futures left to her imagination. We are the sole witnesses to her history: her capture as a child, her tortured days in a harbor city on the eastern coast as a servant, her journey with her last owner and protector, her flight, and the kaleidoscopic world of her baobab tree. Wilma Stockenström's profound work of narrative fiction, translated by Nobel Prize winner J.M. Coetzee, is a rare, haunting exploration of enslavement and freedom.

Based on interviews with young women who were kidnapped by Boko Haram, this poignant novel by Adaobi Tricia Nwaubani tells the timely story of one girl who was taken from her home in Nigeria and her harrowing fight for survival. Includes an afterword by award-winning journalist Viviana Mazza. A new pair of shoes, a university degree, a husband—these are the things that a girl dreams of in a Nigerian village. And with a government scholarship right around the corner, everyone can see that these dreams aren ' t too far out of reach. But the girl ' s dreams turn to nightmares when her village is attacked by Boko Haram, a terrorist group, in the middle of the night. Kidnapped, she is taken with other girls and women into the forest where she is forced to follow her captors ' radical beliefs and watch as her best friend slowly accepts everything she ' s been told. Still, the girl defends her existence. As impossible as escape may seem, her life—her future—is hers to fight for.

Dear Baobab - The Official Book Trailer

A rabbit, lost in the desert and saved by a baobab tree, outwits a stronger, envious neighbor.

When the gods create a talking tree, they soon regret it because it won ' t be quiet. So they turn it upside down and bury its head in the dirt. The classic African folktale, specially retold as part of the Usborne Reading Programme for children just starting to read alone. This ebook includes audio and reading-related puzzles. "Crack reading and make confident and enthusiastic readers with this fantastic reading programme." - Julia Eccleshare

A lively African folktale about a complaining tree getting its comeuppance, with fabulous colourful illustrations. Long ago, when the gods made the world, they created the Baobab tree... and the Baobab tree was not happy. It didn't like the sun and the rain and the wind. It didn't like animals and birds that settled in and under its branches. It envied the other trees for their graceful leaves, their bright flowers and their succulent fruit. Finally the gods tired of its constant complaining, and made sure that it would never say another word. With fun activities after the story, and online audio in both British English and American English.

Today it ' s sports day in the sun. But do you think that Pete can run? Ever since Pete tripped over his long legs and enormous feet, he refuses to run races with the other monsters. But what happens when Jamie Lee gets stuck in the mud down the well? It will take a special someone to help rescue her! Welcome to the School of Monsters: the funniest, silliest and most accessible series for first readers! Start by reading only the last word on every line and work your way up to reading the whole story. With tumbling rhymes and an infectious sense of humour, the weird and wonderful students at the School of Monsters are guaranteed to spark a love of reading!

The biggest plant on our planet is the baobab tree, an enormous "upside down" tree that can live for thousands of years! The baobab tree is used often in Ethiopian culture as an important food and resource for boats, rope, dyes and medicine. But the baobab trees of Africa are dying. Find out more about the ancient Ethiopian baobab forests in our latest Ready Set Go title, Ready Set Go Books, an Open Hearts Big Dreams Project, is focused on increasing the literacy rate in Ethiopia through giving readers books with stories in their heart languages, full of colorful illustrations with Ethiopian settings and details. Profits from books sales will be used to create, print, and distribute more Ready Set Go Books to kids in Ethiopia, Africa's second most populous country. Ethiopia's population is 44% children, ages 0-14 (43 million out of 97 million total). Only 5.5% of children attend pre-school or kindergarten, and the adult literacy rate is 49%. Our books are based on wise Ethiopian sayings that often rhyme in Amharic. If an adult says the first half, many children can chant the second half. Sometimes the meaning of these sayings is clear. Sometimes it has to be puzzled out and argued over. But sayings and idioms and proverbs help people express truths and beliefs in unusual ways. Open Hearts Big Dreams Fund (OHBDF) is a 501(c)(3) not for profit organization that believes the chance to dream big dreams should not depend on where in the world you are born. Our focus is to support nonprofit organizations and their programs that provide literacy, K-12 education, and leadership as well as that support the parents and communities where the kids live, in Ethiopia.
