that are connected with 'smart' investing, including a lesson on 'defensive' and 'aggressive' investors, two different types of stock investing systems. One other thing that Graham uses in his book in order to explain

Book On Value Investing A Book Of Practical Counsel Revised Edition Collins Business Essentials

what he wants to say is something that the author calls as 'Mr. Market.' In his book, Mr. Market is depicted as an obligatory man who will come to the shareholder's door at each day while trying to buy or

sell his shares at different prices. The investors are given with the choice of either agreeing with his price and thus trade with him, or ignore him. Mr. Market will have no problem with this because he will

Considering the book itself, there were altogether four editions, with the last revision being published back in 1973.
