Yes, we'd all like to think that we will live for a very long time, but one never knows when it will end. And that is the point of this quote, whatever we get is enough, if it is well lived. Life is long if you know how to use it. From the author of Letters From A Stoic (Epistulae Moralis), comes another brilliant, timeless guide to living well. Written as a moral essay to his friend Paulinus, Seneca's biting words still pack a powerful punch two thousand years later. With its brash rejection of materialism, conventional lifestyles and group-think, On The Shortness of Life is as relevant as ever. Seneca anticipates the modern world. It's a unique expose of how people get caught up in the rat race and how for those stuck in this mindset, enough is never enough. The 'busy' individuals of Rome Seneca makes reference to, those people who are too preoccupied with their careers and maintaining social relationships to fully examine the quality of their lives, sound a lot like ourselves. Includes biographical sketch 'Seneca The Stoic.'

'From the moment I crossed the mountain I fell in love. With the place, which was more beautiful than any place I'd ever seen. With the people I met there. And with a way of looking at life that was deeper, richer and wiser than any I'd known before. When I left I dreamt of clouds on the mountain. I kept going back.' "Tolstoy's story of life seen through the eyes of Strider, a piebald horse, has been brilliantly and magically adapted to the stage and it makes Strider seem both equine and thoughtfully human. Despite his maverick coat, Strider is a thoroughbred and a champion. He tells his story to the other horses in the stable; it is one of unexpected triumph and undeserved despair, running much the same as his master's, a dissolute prince. Strider is also an allegory about the indomitability of the pure in spirit-- and while inspirational, it is also a valid commentary on the injustices of the world."--Publisher's description.
