Toxic Beauty (2019) - IMDb

Your exposure to cancer-causing, hormonal and other toxic ingredients in these products begins in the womb, through your mother's unknowing use of harmful products, and then steadily continues throughout your lifetime. But unlike cigarettes, which carry cancer warnings on their labels, cosmetics and personal care products include no such cautions.

Did you know that a Roman woman was executed in the 1600s for selling a poisonous lipstick that women kissed their husbands to death with? Or that women painted their teeth and nails with radium for a special glow? From Cleopatra to Carole Lombard, Madam C.J. Walker to Madame de Pompadour, Elizabeth I to Elizabeth Taylor, and geishas to flappers, the history of makeup has many exciting, and some deadly moments. This fascinating book is sure to attract fans of history and science. The history of entrepreneurship, commerce, and beauty standards give context to some of the most bizarre stories of beauty around.

It started with a harmless quest for perfect wash-and-go hair. Every girl wants it, and Siobhan O'Connor and Alexandra Spunt finally found it in a fancy salon treatment. They were thrilled -- until they discovered that the magic ingredient was formaldehyde. Shocked, O'Connor and Spunt left no bottle unturned. If it went on their body (and thus, was absorbed into their skin and bloodstream), they researched it. As it turns out, many of those unpronounceable

Lead in lipstick? 1,4 dioxane in baby soap? Coal tar in shampoo? How is this possible? Simple. The \$35 billion cosmetics industry is so powerful that they've kept themselves unregulated for decades. Not one

Get Free Toxic Beauty How Cosmetics And Personal Care Products Endanger

cosmetic product has to be approved by the US Food and Drug Administration before hitting the market. Incredible? Consider this: The European Union has banned more than 1,100 chemicals from cosmetics. The United States has banned just 10. Only 11% of chemicals used in cosmetics in the US have been assessed for health and safety - leaving a staggering 89% with unknown or undisclosed effects. More than 70% of all personal care products may contain phthalates, which are linked to birth defects and infertility. Many baby soaps are contaminated with the cancer-causing chemical 1,4 dioxane. It's not just women who are affected by this chemists' brew. Shampoo, deodorant, face lotion and other products used daily by men, women and children contain hazardous chemicals that the industry claims are "within acceptable limits." But there's nothing acceptable about daily multiple exposures to carcinogenic chemicals -- from products that are supposed to make us feel healthy and beautiful. Not Just a Pretty Face delves deeply into the dark side of the beauty industry, and looks to hopeful solutions for a healthier future. This scathing investigation peels away less-than-lovely layers to expose an industry in dire need of an extreme makeover. 15 percent of the purchase price of each book sold benefits the national Campaign for Safe Cosmetics, administered by the Breast Cancer Fund, through December 31, 2012.
