Nick Morgan shows how anyone can be an effective speaker by presenting an image of authenticity and respect for their audience, whether in a group presentation or a one-on-one conversation. He presents a four-step process, perfected in his teaching at Harvard, that enables the reader to use their own personal speaking style while becoming a more persuasive and charismatic communicator and leader. The basis of this process is the fact that when words and body language are in conflict, body language wins every time. This isn't easy to overcome, because normally body language is immediate, while the words lag slightly behind, and even a momentary conflict is perceptible to the audience. The key to success is to train your body language to unconsciously align with your message. The four steps: Form the attitude and intent to be open, and then let your body naturally express that intent. This feeling of openness will naturally affect the content of what you are saying, and it's that natural evolution that is at the heart of the process. Become connected to your audience. This creates a mutual energy, and you will naturally begin to think in terms of what the audience wants and needs in shaping your content. Ask yourself, what's my underlying emotion? Why does this matter to me? Becoming passionate about what you have to say naturally makes your audience care about it too. Really listen to the audience. Understanding their needs and reactions will enable you to direct your communication in mutually beneficial ways.

(Applause Books). "These are memoirs of a kid born in New York City in 1925. His dad, George Senior, was a pianist, composer, and orchestra leader at Proctor's Vaudeville Theatre, and his mother, Helen, played in a classic dance troupe. Hanky-panky ensued. They married, and I soon was the result... I write like I talk. A long time ago I tried making 'talking and telling the truth' one and the same. That isn't just difficult; it means painfully reviewing things you've been led to believe since you were a child. That's very hard to do. Like many, I have marched along adhering to conventions (sex, color, church, party, gang) without examination. There's a wonderful, protective 'togetherness' in that anonymity. You obey or are damned, less joined together than stuck together. You become an echo rather than a voice. This book is about what happens when you stop fearing and think. I like writing, but warmed-over BS is not on the menu. You are the most important thing in life. Every phrase in the book awkward or not is how I think and question everything. I wrote every word as if we were sitting together. I want you to think, too..." George Kennedy, from the preface

And as more angry letters revealing people's biggest secrets begin to appear, fingers point at Emily. After all, she's the one with access to everyone's private history, and she's the one with a score to settle. Emily says she didn't do it. But this isn't the first time Emily has lied.
