average person navigate the bewildering array of choices in the ever-changing world of home electronics that impact our day to day lives. A wide variety of topics from lightbulbs to the Internet, TV, Telephone, Cameras, and the Internet of Things (IoT) are explained without all the tech savvy jargon. Each chapter begins with a general overview and practical advice followed by more in-depth information that will give you an understanding of the type of products available and how they work. If you have ever considered disconnecting your cable TV, a smart thermostat or turning on the lights with a voice activated product, then this book is for you. The author's light conversational style along with his own

engaging stories, humor and points of view make these complex topics easy to understand. The information is presented in free-standing independent chapters that can be referenced over and over again as you replace and update the technology in your home.

This book investigates the “collision” or “synthesis” that occurs between people when cultures are shared and reconstructed in different contexts and result in hybridity. By focusing on transcultural flows the authors acknowledge the hybridity in educational concepts and practices that emerge as a result of
