Laser engraving is the practice of using lasers to engrave an object. Laser marking, on the other hand, is a broader category of

# Read PDF User Manual Laser Engraving Machine

methods to leave marks on an object, which also includes color change due to chemical/molecular alteration, charring, foaming, melting, ablation, and more. The technique does not involve the use of inks, nor does it involve tool bits that contact the engraving surface and wear out, giving it an advantage over alternative engraving or

# Read PDF User Manual Laser Engraving Machine

marking technologies where inks or bit heads have to be replaced regularly. They always say that "Time is Money." So why spend hours, if not days of valuable time learning to create beautiful engravings? Get the most benefit out from your home laser engraving machine and the Scarve software with this handy reference guide.
