Valuing environmental goods : an assessment of the ...

The practice of putting a price tag on environmental natural resources is not without its limitations. The first of these relates to accuracy: considering the complex, non- linear nature of ecosystems, valuing the worth of their non-marketed goods can be an imprecise exercise. This uncertainty needs to be acknowledged in the analysis.

Valuing the environment in economic terms

Freeman, III, A. M. (1986) On assessing the state of the arts of the contingent valuation method for valuing environmental changes, in R. G. Cummings, D. S. Brookshire, and W. D. Schulze (eds.), Valuing Environmental Goods: An Assessment of the Contingent Valuation Method, Rowman and Allanheld, Totowa, New Jersey. Google Scholar

An Assessment of the Contingent Valuation Method ...

Nonmarket valuation, i.e., valuing environmental goods and services that are not traded in a market, has been increasingly used in a variety of policy and decision-making contexts. This is one (but not the only) way that researchers and practitioners have sought to define and measure the values that individuals assign to environmental goods and services.
