The Datsun 240Z was a landmark in automotive history--some say the Japanese E-type Jaguar--and by the time the first generation of Z--cars came to an end in 1978, everyone around the world knew the name Datsun and that the company was serious about sports cars.

*Shiftlight*

Shiftlight follows Cam, a young car enthusiast, along with his mates, Taz, Greg and Ollie, Lorna and his girlfriend Miriam through an action packed book that throws together car modifying, customising, street racing and more. The team find themselves a disused road and put it to good use. With a little organisation a hoard of local racers, spectators and their specced machines gather in this hush-hush location one Saturday night to pit it out in a huge drag battle - head to head. That's when the cops decide to gatecrash the party and things get out of hand... Shiftlight tells a gripping story, based on many true-to-life events. It's bound to have you reading it, cover to cover, in fueled enjoyment whether you're a car enthusiast or not...

The 240Z was a landmark in automotive history. By the time the first generation Z-cars came to an end in 1978, everyone around the world knew the name Datsun. Here is the full story of the ZX series from the 280ZX – introduced as the second generation Z-car in 1978 – through to the 300ZX of 1999. The 240Z and 260Z were pure sports cars, but the 280ZX represented the evolution of the Z-car into a Grand Tourer. This evolution continued through two generations of 300ZX and the Z became a true supercar with state-of-the-art engineering features. This book contains a great deal of new information for enthusiasts in the West, as Japanese models have been covered in detail for the first time. Photographs and other illustrations have been sourced almost exclusively from the factory and therefore illustrate the cars in original detail. Datsun Z, also by Brian Long and Veloce, is a complementary book.
