Why You Act the Way You Do
Tim Lahaye in his book 'Why you act the way you do' helps to dispel some of these fears and uncertainties we have while dealing with people by helping us understand the personality type of every individual. According to Tim, we are influenced to a large extent by our personality types.

Review columns. Book review- Why you act the way you do
People behave the way they do because.... Their behavior gets them what they want. Nothing more or less. It gets them what they want. This is the reason they are behaving the way they do. And, as a consequence, they won ' t change their behavior until it stops getting them what they want. Now, here ' s the interesting part.

Readers discover how temperament affects their work, emotions, spiritual life, and relationships and learn how to make improvements.

A child-friendly format for the classic book on how emotions and behaviors interact With wacky characters, varied type faces, and vivid colors, this picture book introduces the vocabulary of values with nonjudgmental language. A wide variety of character traits presents kids with scenarios they can identify with, including peering at bugs with a magnifying glass, making the bed, and finishing a puzzle. Additional examples define words such as "curious," "responsible," "persistent," and "capable." The scenarios let children imagine how they might act in a number of common situations. The Way I Act provides parents with guidance on how to talk to their children about the difference between feelings and actions and the choices that kids can make in their behavior.

The answer to why people feel and act the way they do lies in the profound effect of a child's bonding process with his or her parents. How successfully we form and maintain relationships throughout life is related to those early issues of "attachment." The author has cited four primary bonding styles that explain why people love, feel, and act the way they do. This book is for anyone who desires closeness, especially in the most intimate relationships: marriage, parenting, close friends, and ultimately with God.

Every life is an interesting story, and this story is best written when people go through life ' s experiences by staying connected to who they truly are. To stay connected to yourself, you need first to start listening from within. This book gives a perspective on why we think, feel and act the way we do, through concepts from neuroscience and psychology. It attempts to answer some of life ' s key questions, such as— - Why do we all perceive things differently? - Why are we designed to do different things? - Why do we all learn things in different ways? - How are habits formed? - What role do emotions play in our lives? - What makes us happy? And finally, what it means and takes to stay connected to ourselves and others. " Great ideas for a better living, that not only help you to connect with yourself but also to connect with others. " Dr. David J Lincoln – Chief advisor and president ANLP India. " The simplicity of ideas and the depth of knowledge make this book a must-read for leaders everywhere. " Rajat Garg Master Certified Coach & Director, Global Board of Directors for The ICF (International Coaching Federation) " Vishal brings to life and connects many aspects of living with facts about the brain and how the human mind works. These easy to read and well-structured reflections ' from the heart ' show the simple aspects of living life fully. " Chitra Ravi Founder & Principle consultant at SeedTLC, Regional Representative for India & Asia on the Board of Trustees of the ITAA (International Transactional Analysis Association)

A superb treatment of the basic human temperaments and how God can use them, now revised with new chapters and questions for group study.

God. Whether one loves him, hates him, denies or defies him, it is hard to deny the worldwide fascination with God. This book explores why and suggests a personal response to the God Attachment in all of us. Why has the human race, the world over, been so fascinated with ... some might say obsessed with ... God? This built-in attachment to God crosses religious, political, ethnic, cultural, and generational barriers. Drs. Clinton and Straub reveal fascinating research about this worldwide phenomenon. From avoidant, anxious, and fearful to secure and personal, the range of responses to our internal attachment to God has a profound influence on the way we do relationships, intimacy, and life choices. With helpful self-assessments, intriguing questions, and surprising revelations, this book moves from worldwide statistics to personal challenge, offering the means to become securely attached to God in a way that can have positive effects on our attitudes, approach to life, and overall life satisfaction.

Describes the evolutionary origins of various aspects of human appearance and behavior, including why hiccups occur, why humans laugh, and why they are programmed to eat junk food.

The answer for Why Do People Act That Way? can be found in the interactions of our perceptions, emotions, motivations and behaviors. Discover the four essential complexes and the five basic emotional systems as the keys to the understanding and influencing the people around you. In life, there are no bad emotions, nor good emotions. They are just that -- human emotions. The real question lies in what we do with them. What this book will do for you -- Teach you practical skills you can use daily to disentangle complicated or difficult situations and relationships. -- Give you insight into the four key complexes of the mind and how they shape our sense of reality. -- Offer tools for accurate understanding and effective resolution of the five emotional systems. -- Help you to ask questions, get answers, and then ask better questions. -- Identify your own storyline in a way that may help you resolve some lifelong issues.

Have you ever met anyone who didn't have some behavior he or she couldn't stand? Why do we so often continue to behave in ways that make us unhappy? Why don't we learn from our mistakes? Why does willpower fail? Have you adopted the qualities that you hated in your parents? Do you wonder why? Many of the available self-help books give advice and present general ideas about the cause of our problems but do not provide in-depth insight into the reasons behind our behavior. They don't tell us why it is so difficult to follow their advice or our own desires and to overcome our problems. Why You Behave in Ways You Hate does. Dr. Goolnick explains why children blame themselves for their parents' faults and how this creates hidden, destructive mind-sets that cause the behaviors that plague us. In a clear, straightforward way, he shows you how to see past the psychological blinders that make it difficult for you to see how these mind-sets operate and then to take effective action. Seven charts identify specific behaviors and allow you to look up your personal problem and understand at a glance how it originated or how you may have responded to it. Using individual personality profiles of you and your family members, you will be able to analyze what happened in the past and to institute changes in your thinking and behavior. In addition, because Why You Behave in Ways You Hate is based on family dynamics, it is an invaluable asset for parents working on problems they may have with their children. It will help break the generational cycle of doing to your children what was done to you. Who is this book for? Its for anyone who has difficulty in achieving success in school or a career, who repeatedly get involved in bad relationships, or who have trouble extricating themselves from abusive relationships. It also appeals to parents who have problems with their children, to those who feel insecure, inadequate, or depressed without cause, and to individuals who have problems with addictions or weight control, or who sacrifice their own interests for others.

Do you long to understand your mate, date, or your friends better? Once you have the keys to understanding the reasons men and women act the way they do, you will discover new potential in all you relationships. You will appreciate yourself more and criticize others less.
